4 Key Points Making Our Pumpless Tech the *Choice for Today*

Pumpless Design

30% LESS PLASTIC

- Saves energy and money while reducing plastic waste per refill.
- No pump design reduces the cost of production and passes the savings to you!

Low Soap Cost, Better Features

- Innovative new design minimizes cost and improves everyday usage
- Environmentally sound, **100% recyclable** and contains no metal in the cartridge

Ask us how you can save your money and time today!

Adjustable Output

- Three dispense modes for your preference
- Factory default modes are 0.8 mL, 1.2 mL and 1.6 mL.
- Rinse function included for periods of inactivity

Efficient - Battery Saver

- Easy snap-in battery compartment design
- Big Energy Saver: **uses only 4 AA batteries** and functions for multiple years before changing batteries
- Saves money, reduces labor and less complaints compared to 4 D batteries in the market
